**maintain 2012**

October 16–18 | M,O,C, Munich | Germany  
International Trade Fair for Industrial Maintenance

Venue: M,O,C,

Lilienthalallee 40, 8 0939 München, Germany

## Index of Products and Services

### **1 Maintenance services and maintenance management**

- 1.1 Plant optimization and modernization
- 1.2 Industrial assembly, plant relocations
- 1.3 Shutdown and turnaround management
- 1.4 Environmental-protection concepts
- 1.5 Risk management, insurance
- 1.6 Personnel leasing
- 1.7 Maintenance organization and process optimization
- 1.8 Maintenance concepts and methods
- 1.9 Facility management
- 1.10 Technical infrastructure management
- 1.11 Quality assurance and certification
- 1.12 Consulting, planning
- 1.13 Management and operator models
- 1.14 Contracting
- 1.15 Energy minimization and recovery
- 1.16 Energy audits and management
- 1.17 After-sales and manufacturer services
- 1.18 Cross-industry services

### **2 IT solutions and services**

- 2.1 Enterprise asset management
- 2.2 Enterprise resource-planning systems
- 2.3 Maintenance planning and control systems (CMMS)
- 2.4 CAFM systems
- 2.5 Cockpit solutions
- 2.6 Technical documentation
- 2.7 Manufacturing execution systems (MES)
- 2.8 Mobile services and applications
- 2.9 Mobile devices
- 2.10 Augmented reality
- 2.11 Staff planning
- 2.12 Replacement-part management
- 2.13 Field-service resource management
- 2.14 IT consulting

### **3 Inspection: Measuring and monitoring technology**

- 3.1 Remote service, online monitoring
- 3.2 Condition monitoring
- 3.3 Machine diagnosis, damage assessment
- 3.4 Mobile maintenance, data-acquisition systems, RFID
- 3.5 Special-purpose sensors
- 3.6 Temperature-measuring equipment and measuring
- 3.7 Flow-measuring devices, valve monitoring
- 3.8 Ultrasonic measuring devices
- 3.9 Infrared systems, thermography
- 3.10 Vibration-analysis equipment (offline, online) and analysis
- 3.11 Machine protection (vibration-based)
- 3.12 Endoscopes, endoscopy
- 3.13 Test equipment for electric components
- 3.14 Emission-measuring devices and measuring
- 3.15 Laser-based shaft alignment and geometry measuring systems
- 3.16 Laser, alignment and geometry-measuring systems
- 3.17 Systems for industrial test laboratories

### **4 Maintenance and repair**

- 4.1 Repair, repair technology
- 4.2 Modernization, retrofitting
- 4.3 Filters, filter systems
- 4.4 Seals and gaskets, sealing technology
- 4.5 Hoses and fittings
- 4.6 Other replacement and wearing parts
- 4.7 Workshop equipment and supplies
- 4.8 Safety and protective equipment

### **5 Tribology/fluid management, operating and auxiliary supplies**

- 5.1 Coolant and lubricant management
- 5.2 Oil, lubricant and fluid monitoring
- 5.3 Lubricant analysis
- 5.4 Lubrication systems and equipment, emulsion-splitting plants
- 5.5 Oil service, oil cleaning and oil care equipment
- 5.6 Lubricating oils, greases

- 5.7 Cooling lubricants
- 5.8 Hydraulic oils
- 5.9 Adhesives
- 5.10 Corrosion protection
- 5.11 Wear protection
- 5.12 Descaling
- 5.13 Technical gases

### **6 Industrial cleaning services**

- 6.1 Industrial cleaning services
- 6.2 Special cleaning techniques
- 6.3 Plant and machine-cleaning equipment
- 6.4 Component cleaning, component-cleaning machines

### **7 Technical building equipment**

- 7.1 Cable and wire technology
- 7.2 Building-services engineering
- 7.3 Air-conditioning, heating & cooling
- 7.4 Lighting
- 7.5 Ventilation
- 7.6 Lifting devices and cranes
- 7.7 Lift/elevator technology
- 7.8 Fire protection and building safety
- 7.9 Uninterruptible power supplies

### **8 Education and training**

- 8.1 Suppliers of educational and training materials
- 8.2 Universities, technical colleges
- 8.3 Educational facilities, schools

### **9 Organizations and publishers**

- 9.1 Research organizations
- 9.2 Publishers, providers of technical literature
- 9.3 Trade associations
