

Room 05

Room 05 on the ground floor has 390 m² of space and a seating capacity of 413 people in theater seating, 208 people with classroom seating and 196 people with banquet seating. It is particularly suitable for conferences, meetings and presentations or as a catering area for approximately 200 guests. Permanently installed media equipment makes it possible to broadcast to adjacent rooms.

Location:

Ground floor

- Deliveries backstage between Hall B1 and the ICM (direct vehicle access)
- Deliveries may also be made from the lower level via two 2 elevators (2 m wide, 3 m long, max. 2,000 kg)
- Parking for OB van directly behind the room

Suitable for:

Conferences, meetings, presentations or as a catering area for approximately 200 guests

Size/capacity:

390 m², seating for 413 people in theater seating, 208 people with classroom seating, 196 people with banquet seating

Special features:

- Color of room: Sulfur yellow (RAL 1016)
- Usable performance space: 26 m
- Room height: 4.50 m
- Permanently installed movie screen. Size: 4 m x 3 m

Media equipment:

Cantus Console from Stagetec. The console is freely configurable, equipped with 32 fader sections and has direct access to the ICM's Nexus audio network. The average channel capacity is approximately 40 input channels and approximately 6 stereo sums. Two slave consoles with 20 fader sections are also available.

Permanently installed media equipment:

- Audio: CD, MD, MC, DAT, 8 x radio mics, interpreter's system, 5 interpreter's booths
- Video: S-VHS. BETACAM SP
- Direct connections to other rooms possible

Stage platform:

The 3-meter deep, 8-meter-wide platform is 25 cm high, which makes it ideal as a performance area. It has a maximum floor load of 500 kg/m², is carpeted, fixed and may not be dismantled. Stairs leading to the stage are located on each side.

Overhead machinery:

2 machine hoists above the main stage area make it possible to hang curtains and decorations as needed. Maximum capacity: 500 kg per flying bar, flying bar length: 9.80 m; can be moved 1 m to the side, 60 mm pipe, 3.5 mm.

Lighting:

There is a lighting hoist on the ceiling of the room. Highest position: 4.5 m above room level. Distance from stage: 2.5 m. Downlights are used to evenly light the room and the performance area. Dimmable connections are available for additional lighting. A variety of additional lighting equipment is also available (Fresnel-lens and profile spotlights). Electrical connections can be provided for portable spotlights. The lighting system uses DMX 512 signals. DMX 512 connections are available at all spotlight positions and in the control booths. All equipment is connected using safety-contact plugs or CEE plugs.

Control booth/Projectionist's booth:

The control booth is on the back wall, 2.7 m above room level. The distance to the front edge of the stage is 12 m.
