

Hall 1 to 4 Technical Data

TECHNICAL DATA

Exhibition space	approx. 15,000m ² , divided into four sections measuring 2,955m ² , 2,758m ² , 3,892m ² and 4,165m ² .
Supporting structure	steel composite structure, 12mx12m half beams, transverse
Hall height	4.3m clear height of hall centre 4.0m usable clearance
Max. load capacity	1.5t / m ² , 18t truck (licence weight), 7.5t fork lift truck (licence weight), electric fork lifts only
Floors	mastic asphalt, utility ducts 20cm x 25cm transverse
Walls	up to 2.50m height, chipboard with wood/brick foundation construction
Gates	2 delivery gates per section 5.0m x 4.25m between delivery zone and presentation area
Air-Conditioning	ventilation system as partial air-conditioning system for heating and cooling
Lighting	350 Lux
Electricity supply	power supply approx. 230/400 Volt, 50 Hz (50 Watt/m ²) connections via utility duct
Water supply	water supply 1", sewage pipe diameter 100 in a grid of 6m x 12m connections via utility duct
Communications	connections for phones, telefax, broad band network communications etc. from ceiling WLAN-Hotspot
P.A. system	for announcements, operable by section
Lavatories/WC's	one set of lavatories/WC's per section plus separate lavatory for the handicapped

Premises	Total area size in m ²	Theatre style	Classroom style	Banquette style
Hall 1	2,955	1,630	700	1,450
Hall 2	2,758	1,700	800	1,350
Hall 3	3,892	1,560	800	2,000
Hall 4	4,165	1,800	700	2,200
