

IranConMin 2010 – Trade Fair for the Future

IranConMin offers the international construction equipment, mining, natural stone and building industry an attractive and successful market platform, with guaranteed customer contact and the chance to establish lasting business relationships in one of the biggest growth markets of the region.

Iran – a growing market

Excellent opportunities for the international construction industry arise from the strong demand for housing, necessary infrastructure expansion and modernisation, and not least also from the expansion and modernisation of industrial plant and production facilities.

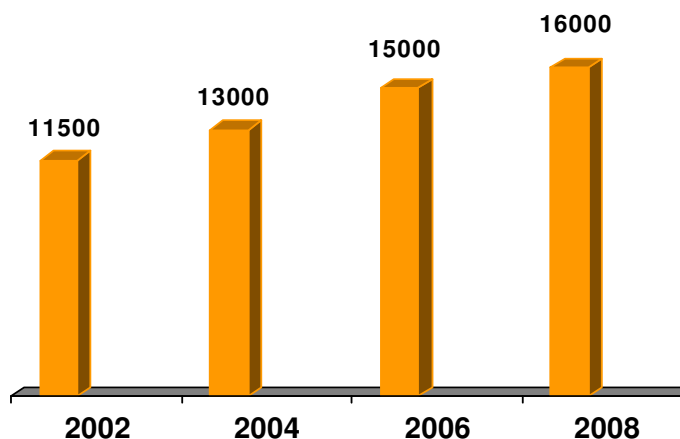

Planned Projects

- Rail link Iran – Azerbaijan, 350 km, construction time 8 years, total investment US\$ 600 million.
- Experts say that Iran needs 30 new cement works
- Hamedan cement works, total investment US\$ 100 million
- Many earthquake-resistant buildings in the next ten years, total investment US\$ 140 billion
- Planned up to 2010 – 4.3 million new residential units

IranConMin 2008 – a great success

The eight IranConMin which took place in Tehran from 29 June – 02 July 2008, was again a great success.

- 246 exhibitors
- 31,800 visitors
- 16,000 sqm

Development gross exhibition space (sqm) 2002–2008

Exhibitors 2008

In total 246 companies (145 national, 101 international) took part, among them industry leaders such as Liebherr, Volvo, Wirth, Hyundai, Sermak, Jun Jin, Atlas Copco, Liu Gong and Komatsu. Companies from China, Italy and Germany exhibited in national pavilions.

Top decision-makers 2008 from the following sectors

- Housing and urban development
- Building and construction companies
- Road and bridge construction companies
- Natural stone industry
- Mining development
- Coal and ore mining
- Architects and consulting engineers
- Interior decoration
- Building materials industry

IranConMin 2010 – Product Range

Construction equipment and building material machines

- Earth-moving and construction equipment
- Building material machines & plants
- Drills, pile drivers & pulling tools
- Mixing plants & technology for the cement, lime, sand, clay, gravel & crushed stone industries
- Ceramics & glass machinery
- Lifting & conveying equipment
- Compressors, pneumatic & hydraulic tools
- Formwork & scaffolding
- Accessories & replacement parts for vehicles, construction & building material machines

Mining machinery and equipment

- Equipment for shaft-digging, drilling, advance work & walling
- Excavators, conveyors, transport & stowing machines
- Coal-breaking plants
- Air-supply & air-conditioning equipment
- Open-pit mining equipment
- Open-cast mining & processing machinery
- Continuous surface miners
- Coking plants
- Compressed-air machines & hydraulic equipment
- Drive units
- Pumps & compressors
- Measuring equipment & safety devices
- Electrical systems & ventilation
- Accessories & replacement parts

Natural Stone - IranStoneMac

- Natural stone for facades, interior & exterior applications
- Equipment for fixing, maintenance, preservation & restoration of natural stone
- Blocks & semi-finished products of marble, granite, onyx etc.
- Dimensional stone
- Industrial diamonds
- Machinery, plant & tools for quarrying & tooling natural rock
- Equipment for natural stone processing
- Abrasives, adhesives
- Diamond tools
- Traditional tools
- Polishing materials and waxes
- Stone & metal accessories

Construction material

- Building materials; glass, metal, stone, cement, timber
- Chemical building products
- Domestic engineering and technical fittings
- Safety, security & fire protection equipment
- Bathroom & sanitary installations
- Ceramics for indoor applications
- Windows, doors & interior decoration
- Mounting & fixing systems
- Paints & surface treatment
- Construction systems, tools & machinery
- Integrated Facility Management
