

### **Rooms 13a & 13b**

Whether you are organizing a lecture event, presentation, meeting or conference – Rooms 13a and 13b have 385 m<sup>2</sup> of space and can accommodate 437 people in theater seating, 208 people with classroom seating or 176 people with banquet seating. They feature performer dressing rooms, media equipment, stage extensions and movie screens, making them ideal for a variety of small and medium-sized events.

#### **Location:**

First floor

- Deliveries via two freight elevators (width 2 m, length 3 m, max. 2,000 kg) next to stage
- Elevators loaded at ground level (behind Room 05) and lower level (tunnel).
- Elevators stop at room level and at stage level.

#### **Suitable for:**

Lecture events, presentations, meetings, conferences etc.

#### **Size/capacity:**

385 m<sup>2</sup> each; seats 437 people in theater seating, 208 people with classroom seating, 176 people with banquet seating

#### **Special features:**

- Color of room: Yellow green (RAL 6018)
- Daylight – can also be darkened
- Performer dressing rooms: 2 group dressing rooms and 1 private dressing room

#### **Movie screens:**

Each room features a permanently installed screen for front projection measuring 8 m x 9.2 m on the side of the room where the stage is located. The screens are on rolls and can be retracted whenever necessary. Additional mobile screens for front and rear projection are also available.

#### **Stage:**

Each room has a performance stage measuring 20 m<sup>2</sup>. Platforms may be added to increase the size of the stage. Using a variety of adjustable platforms makes it possible to come up with several variations regarding height and length. Seating faces the stage area.

#### **Overhead machinery:**

Suspension points in the room: A system of rails for chain point hoists is located above the closed ceiling. The hoists are suspended through 32 grommets. Chain hoists as defined by VBG 70/BGV C1 (for use above audiences) can be used independently. Technical specifications: Max. load: 500 kg.

#### **Lighting:**

General lighting system: the room is equipped with downlights and fluorescent lamps. A stagelighting system with a variety of lights (e.g. Fresnel-lens and profile spotlights) is used to light the stage. The following lighting positions are equipped with dimmable connections:

- 1 lighting hoist (stage)
- 1 lighting bridge (room)
- Lighting stands on the left and right sides of the room and on the control booths at the back of the room

The room has two DMX 512 lines. Additional dimmers and moving lights can be added if necessary.

**Media equipment:**

Rooms 13a and 13b have an audio control booth equipped with a digital control console – i.e. the Cantus Console from Stagetec. The console is freely configurable, equipped with 32 fader sections and has direct access to the ICM's Nexus audio network. The average channel capacity is approximately 40 input channels and approximately 6 stereo sums. Two slave consoles with 20 fader sections are also available.

**Permanently installed media equipment:**

- CD, MC, MD, DAT 12 x radio mics, may be distributed between both rooms as needed
- Interpreter's system, 3 interpreter's booths
- 1 control booth per room, Intercom, S-VHS Rec. BETACAM-SP Rec.
- Direct connections to other rooms possible
